

Anglo Holt

the complete construction service

Sytner United Auto Group, Knutsford

The design and construction of a New Car Dealership with service and repair workshop.

The brown field site development included the remediation of a former paper mill site and included the construction of a new signal junction and estate roadway. The infrastructure works and dealership works were packaged together to give Anglo Holt single point responsibility for delivery in the required timescale.

Following an initial infrastructure works programme of 14 weeks the dealership was constructed in a 28 weeks period and was handed over in December 2007 for opening in January 2008.
